ICANN

Overview

1. ICANN 48 update
2. Resiliency and security in the DNS
3. Increasing Participation in ICANN
4. Regional Engagement Strategies
5. Upcoming meeting

1. ICANN 48 Update:

- Internet Governance dominated
- 1Net initiative, http://1net.org/
  - 23-24 April, 2014 in Sao Paolo. Global Multistakeholder Meeting on Future of Internet Governance
- New Whois Studies
- New generic Top Level Domain (gTLD) update
  - 24 new gTLD added to root
  - 1798 active applicants
  - http://newgtlds.icann.org/en/

ICANN

2. Resiliency and Security in the DNS

- All new gTLD registries will:
  - Implement DNSSEC (use of cryptographic keys to sign zones)
  - Implement IPv6
- Existing TLD operators (inc. ccTLDs) urged to deploy DNSSEC and IPv6
- Root-server anycast deployment
  - ICANN collaborating with ISPs to host L-root instances
  - Already 13 instances in Oceania (4 in Pacific)
  - http://dns.icann.org/lroot/

3. Increasing Participation in ICANN

- Anyone can participate in ICANN
  - Join its Supporting Orgs / Advisory Committee constituents
  - Attend 3 global meetings a year
  - Fellowships to support attendances
- New remote participation tools
  - MyICANN
  - ICANN Labs
  - ICANN Learn
  - Adobe connect during meetings

4. Regional Engagement Strategies

- Developed with community in regions
- New Oceania-ICANN working group formed (Part of Asia Pacific)
  - 13 members from 8 Oceania countries/territories
    - Adhoc and WG meetings held
  - Recommend activities for region
    - eg. Capacity building, enhance cooperation, participation, etc.
  - https://community.icann.org/category/gse
  - Will solicit input from community before final draft
  - Target report completion by ICANN 49

5. Upcoming meetings

- ICANN 49 in Singapore, 23-27 March 2014
  - Fellowships still open to GAC and ccNSO members
- ICANN 50 in London, 22-26 June 2014
  - Fellowship application round to be announced soon

ALL WELCOME

Vinaka!!
